Blackinton®

Commemorative/Custom Designed Badges

Blackinton® will help you achieve exactly what you have in mind when the occasion calls for a truly memorable commemorative or custom designed badge. Our designers will first develop your ideas, symbols, local landmarks, historic buildings, or other reference materials into an artist's rendering for your approval. This artwork is then transformed by our highly skilled die makers into a steel die, which captures every subtle detail of your unique design. A customized center seal can also be designed and included in the overall badge design to further personalize your badge. The badge then takes on enhanced substance and shape as it travels through the remaining manufacturing process, resulting in a badge your department will be proud to wear.

You may choose from a wide variety of unique finishes by Blackinton® and described in more detail on pages 44 – 46.

Commemorative/custom designed badges illustrated on this page are manufactured exclusively for the departments shown and are not available for sale.

Popular eagle motifs are designed into the badge itself or can be applied.

Colorful center seals feature 50 states, insignia, or custom designs.

Hundreds of applied center designs to choose from.

Every background detail is captured through painstaking care in die-cutting and production methods.

Three of our most popular badges demonstrate the skill, precision, and craftsmanship that make Blackinton® the badge of choice.

ENGRAVED COMMENDATION BARS

ECONOMICAL CUSTOM SOLUTION

^ Engraved commendation bars offer customization without a die cost for small custom orders, and a sound quality manufacturing alternative to applying characters to commendation bars.

Engraveable commendation bars (see our website for a complete listing) can be engraved with block lettering and/or the symbol of your choice. We also offer ONE color in the engraved area (examples on right). If a color is not specified the bars receive clear in the engraved area and the metal will show through (examples on the left).

A7140-LS with SYM-7

A7140-LS with Sym-7 filled with blue enamel

A7140-LS Your lettering

A7140-LS Your lettering filled with white enamel

Blackinton® does not recommend applying characters to commendation bars as they do not meet our high quality standards. Applied character bars are no longer repaired for free.

AVAILABLE SYMBOLS (July 2024)

Please order referencing symbol style; i.e., Symbol 24

*Stars will be evenly spaced in engraveable area

All merchandise shown actual size.

*Must be ordered with any number or letter applied, at an additional cost.

+ Available only in style shown. Specify color.

^ There is an add on charge for engraving commendation bars.

#110

#218

These symbols of recognition can be awarded to the most deserving members of your department to honor exemplary service, to mark a special achievement, or simply to show appreciation for a job well done. Blackinton® offers a variety of ways to turn badges, insignias, and medals into high quality keepsakes by encasing them in crystal clear Lucite.

#239

These top quality awards can be designed as display pieces or as functional items such as pen holders, desk sets, paperweights, and so on. Blackinton® Lucite embedments can be ordered to your specifications. Lucite is available in a wide variety of shapes and sizes. Please contact your local dealer for more information about our Lucite embedments.

AWARENESS BADGES

Bringing awareness to the fight against Breast Cancer, and other causes was the catalyst for our colorful awareness badges. We take pride in being the first badge manufacturer to bring awareness badges to the market. We donate 10% of sales from our Breast Cancer line to charity.

UNLIMITED COLORING™

Because demand has grown for a more advanced use of color on metal badges we developed our proprietary technology. It enables us to cost effectively add color to a metal badge without disrupting the detail in the metal. We can add unique designs without the need for a new die.

Two-Tone, one piece constructed badges, are available only as shown.

Two-Tone badges with applied panels are only available with Rho-Glo® background and Hi-Glo® panels or Hi-Glo® background and Rho-Glo® panels.

BLACKINTON® FINISHES AVAILABLE

NICKEL PLATE

Nickel Plate is a hot nickel solution applied by the electroplating process to the polished base metal of a badge. It is silver in color and has a fair degree of hardness. Nickel plate will sometimes lose some of its luster with age.

RHODIUM PLATE

Rhodium, an element within the platinum metal group, is a precious metal that is applied by the electroplating process over a bright nickel base. Rhodium can be distinguished by its brilliant white finish and is tarnish resistant. It will not discolor or peel from the surface of a badge.

RHO-GLO®

A base material which has a solid silver color throughout and requires no surface plating. Highly polished to a brilliant luster, a clear coating is then applied to enhance its durability.

GOLD ELECTROPLATE

A deposit of 22K+ fine gold electroplate on base material for a rich, bright appearance.

HI-GLO®

A base material which has a golden color throughout and requires no surface plating. Highly polished to a brilliant luster, a clear coating is then applied to enhance its durability.

V.H.B. KK®

Heavy gold electroplate (HGE) is the ultimate in fine gold plate. This process applies a uniformly thick coating of tarnish proof high karat gold, purer and more durable than gold plate.

ROSE GOLD

A darkened gold electroplated base material which is hand rubbed to create the appearance of an antique gold finish.

V.H.B. BLACK

A subdued black finish over a base material which is then lacquered to provide a durable finish and also minimizes reflection.

V.H.B. BRONZE

A base material, blackened and hand rubbed leaving the appearance of natural oxidation from age. A clear lacquer coating is applied to enhance its finish and durability.

TWO-TONE

A combination of gold and silver colors. Badges with applied panels will normally consist of Hi-Glo® material for the gold color and Rho-Glo® material for the silver color. Badges of one-piece construction will consist of Hi-Glo® panels and rhodium background or Rho-Glo® panels and gold plate background.

GENERAL DEALER INFORMATION

PLACING ORDERS

You must be an authorized Blackinton® distributor to place orders with our factory. Orders must be placed through our online Web Wizard ordering portal. For obscure products Blackinton may authorize using an official Blackinton order form. Handwritten orders are not accepted. To become a dealer, please contact us via our website www.blackinton.com.

CANCELLATIONS & CHANGES TO EXISTING ORDERS

The nature of our operation is such that changes or cancellation of orders once received are extremely time consuming and simply delay the processing of orders on-hand. Within 24 hours of placing an order it can be canceled with no penalty. After 24 hours of placing an order it can be canceled, but there will be charges incurred based upon where the product(s) is in the manufacturing process.

After submitting an order using the Web Wizard ordering portal you have a ONE HOUR window in which you can go back into your order and edit or delete the order. After this hour you need to contact customer service for assistance.

DELIVERIES

Most orders received in our office are processed through our order entry system usually within 24 hours. Orders found to be incomplete are set aside until missing information can be obtained. The process of producing a quality badge is unavoidably time consuming. Although we carry a large inventory of stock components, they are all in a raw state and require additional work prior to assembly. Normal delivery on orders is between 3 to 5 weeks. However, if hard enamel is used, or custom badge styles, panels, or other components are needed, the lead time will be extended. Under our QuickShip program orders ship within 5 business days of order receipt. Lead times are subject to change due to holidays, shortages, and other issues. Please refer to our website under customer care / shipping policies for the most up-to-date shipping information.

Due to our stringent quality control guidelines, a badge may be rejected at any point throughout the manufacturing process. Once this occurs it may have to be remade, again causing unavoidable delays. Delays of this type are minimal however.

DIES

For our complete Die policy visit our customer care center on our website, www.blackinton.com. We welcome all requests for new dies. All dies manufactured by Blackinton® are owned by Blackinton® subject to the following provisions relating to use and control of the die by the end user or dealer. A die for a badge, seal, or panel fabricated by Blackinton® in accordance with an end user specific design is considered an end user controlled die. The right of dealers to order badges, seals, or panels utilizing an end user controlled die shall be subject to the control of the end user. In instances where a dealer provides a die or a dealer requests fabrication of a die incorporating a specific design, that is not an end user design the dealer controls the use of the die. However, Blackinton® may produce an identical or substantially similar die for one or more other dealers unless the design is protected by a registered trademark or copyright. End user controlled dies and dealer designed dies may be subject to fabrication or set up fees.

The maintenance and storage of dies and tooling is the sole expense of Blackinton®. Blackinton® will not reproduce product incorporating copyrights or registered trademarks without proper permission. Blackinton® will retain possession of all dies and, except for dies furnished by an end user or dealer, Blackinton® will not return any die to any dealer or end user.

ART DESIGNS

To assure complete conformity to your requirements, please state clearly and in detail all of your specifications. Whenever possible, include high resolution imagery of items in your design. Provide a rough drawing of your ideas which Blackinton will use to provide an artists rendering. This artwork remains the property of V.H. Blackinton & Co., Inc. It cannot be copied or used for competitive bidding without the express written consent of V.H. Blackinton & Co., Inc.

QUOTATIONS

We are happy to provide quotations upon request. All quotations are subject to changes contingent upon current cost of raw materials, strikes, accidents, or other delays unavoidable or beyond the company's control.
